

LEGAL EVIDENCE PACKET

BharatShield Sovereign Compliance System

Packet ID: cdac5127-2385-4326-9c87-1985b98bf7a5

Generated: 03-06-2026 15:55:04 IST

Subject: **Subject Under Investigation**

Case classification: case_c_general_public

SECTION 1 — Executive Summary

Media classified as likely synthetically manipulated based on 7 forensic indicator(s), including 4 high-severity finding(s).

Legal routing: General political/public figure (Subject Under Investigation) — standard cyber crime and intermediary notices. Deepfake grounds: Audio–video lip movement is misaligned, consistent with synthetic dubbing or post-hoc voice replacem; Spatial facial inconsistencies detected across frames suggest GAN or deepfake-based facial manipulat; 3D face mesh landmarks are unstable across the temporal sequence, indicating inconsistent facial geo

Intermediary takedown window: 3 hours (deadline 03-06-2026 18:55:04 IST)

SECTION 2 — Applicable Statutory Charges

Statute	Section	Description
Bharatiya Nyaya Sanhita, 2023	319	Cheating by personation
Bharatiya Nyaya Sanhita, 2023	336	Forgery of electronic records
Bharatiya Nyaya Sanhita, 2023	356	Criminal defamation

SECTION 3 — Electronic Record Identification (BSA 2023)

Original filename	annamalai_fake.webp
Format	WEBP

Size (bytes)	219268
SHA-256 hash	b43ea392960d67ed418657ff6b61399cfd641e2996a67b22bf7291cf
Workstation serial	BHARATSHIELD-LOCAL-001
Terminal MAC	00:00:00:00:00:00
Analyst ID	Demo Citizen 08

SECTION 4 — Schedule to Section 63, BSA 2023 — Part A (User Declaration)

I certify lawful control of the device from which the electronic record was produced, without alteration of substantive content, for production under Section 63 of the Bharatiya Sakshya Adhiniyam, 2023.

Declarant	Forensic Analyst (Demo Citizen 08)
Place / Date (IST)	Forensic Analysis Centre, India / 03-06-2026 15:55:04 IST

Signature: _____ Date: 03-06-2026

SECTION 5 — Schedule to Section 63, BSA 2023 — Part B (Expert Certification)

Certified by authorised digital forensic examiner under Section 79A, Information Technology Act.

Expert	Dr. Authorized Forensic Examiner (IT-79A-IND-2026-XXXX)
Subject identified	Subject Under Investigation (user_override)
Hash verified	b43ea392960d67ed418657ff6b61399cfd641e2996a67b22bf7291cf

Forensic metrics

- Spatial manipulation probability: 90.41%
- Lip-sync error: 149.82 ms
- TTS synthetic probability: 99.85%
- Anti-spoofing confidence: 0.12%

Grounds for Deepfake Classification

Summary: Media classified as likely synthetically manipulated based on 7 forensic indicator(s), including 4 high-severity finding(s).

- Audio-Video Sync (critical):** Audio–video lip movement is misaligned, consistent with synthetic dubbing or post-hoc voice replacement rather than naturally captured speech. *(lip_sync_alignment_error_ms: 149.8 ms)*
- Facial Manipulation (high):** Spatial facial inconsistencies detected across frames suggest GAN or deepfake-based facial manipulation. *(spatial_cnn_manipulation_probability: 90.41%)*
- 3D Face Geometry (medium):** 3D face mesh landmarks are unstable across the temporal sequence, indicating inconsistent facial geometry typical of synthetic faces.

(face_mesh_landmark_variance: 0.0998)

- **Synthetic Voice (high):** The voice track exhibits characteristics consistent with text-to-speech or neural voice cloning rather than a live recording. *(tts_synthetic_probability: 99.85%)*
- **Voice Authenticity (medium):** Pitch contour and spectrogram features do not match natural speech patterns for the apparent speaker, suggesting audio synthesis or splicing. *(spectrogram_pitch_mismatch_ratio: 49.94%)*
- **Anti-Spoofing (high):** Anti-spoofing neural network assigns low confidence to bona fide speech, indicating the audio is likely non-genuine or heavily processed. *(anti_spoofing_nn_confidence: 0.12%)*
- **Analyst Observation (medium):** Auto-generated from BharatShield detection. CNN=0.9041, FFT=0.9985, Verdict=Fake

Expert signature: _____ Date: 03-06-2026

SECTION 6 — Grounds for Deepfake Classification

See detailed findings above. This media exhibits indicators consistent with synthetic generation under multi-modal forensic analysis.

SECTION 7 — Regulatory Notices & Complaints (Summary)

IT Amendment Rules, 2026: Intermediary takedown notice required within 3 hours under Rule 3(1)(b).

Cyber crime: FIR recommended under BNS for cheating by personation, forgery, and defamation.

SECTION 8 — Chain of Custody Statement

The original electronic record, forensic analysis outputs, and this compiled packet are sealed with cryptographic hashes. Any alteration invalidates the bundle hash recorded in the audit log and eSakshya metadata.
