

LEGAL EVIDENCE PACKET

BharatShield Sovereign Compliance System

Packet ID: 8c1bf891-c969-4cc2-8c92-4225e8089ae4

Generated: 02-06-2026 10:42:50 IST

Subject: **Shri Demo Politician**

Case classification: case_b_active_candidate

SECTION 1 — Executive Summary

Media classified as likely synthetically manipulated based on 12 forensic indicator(s), including 4 high-severity finding(s).

Legal routing: Active electoral candidate under MCC in Demo Lok Sabha Constituency (Shri Demo Politician). Deepfake indicators exceed evidentiary threshold. Deepfake grounds: Audio–video lip movement is misaligned, consistent with synthetic dubbing or post-hoc voice replacem; Spatial facial inconsistencies detected across frames suggest GAN or deepfake-based facial manipulati; 3D face mesh landmarks are unstable across the temporal sequence, indicating inconsistent facial geo

Intermediary takedown window: 3 hours (deadline 02-06-2026 13:42:50 IST)

SECTION 2 — Applicable Statutory Charges

Statute	Section	Description
Representation of the People Act, 1951	123(4)	Corrupt practice to prejudice an election through false statements
Bharatiya Nyaya Sanhita, 2023	356	Criminal defamation through morphed/synthetic media
Bharatiya Nyaya Sanhita, 2023	336	Forgery of electronic records to cheat

SECTION 3 — Electronic Record Identification (BSA 2023)

Original filename	demo_deepfake_sample.mp4
Format	mp4
Size (bytes)	10485760
SHA-256 hash	b94d27b9934d3e08a52e52d7da7dae55cfe5f806fb7c93f00039b7c69
Workstation serial	DEMO-WS-2026-0001
Terminal MAC	00:11:22:33:44:55
Analyst ID	DEMO-ANALYST-001

SECTION 4 — Schedule to Section 63, BSA 2023 — Part A (User Declaration)

I certify lawful control of the device from which the electronic record was produced, without alteration of substantive content, for production under Section 63 of the Bharatiya Sakshya Adhiniyam, 2023.

Declarant	Forensic Analyst (DEMO-ANALYST-001)
Place / Date (IST)	Forensic Analysis Centre, India / 02-06-2026 10:42:50 IST

Signature: _____ Date: 02-06-2026

SECTION 5 — Schedule to Section 63, BSA 2023 — Part B (Expert Certification)

Certified by authorised digital forensic examiner under Section 79A, Information Technology Act.

Expert	Dr. Authorized Forensic Examiner (IT-79A-IND-2026-XXXX)
Subject identified	Shri Demo Politician (hybrid)
Hash verified	b94d27b9934d3e08a52e52d7da7dae55cfe5f806fb7c93f00039b7c69

Forensic metrics

- Spatial manipulation probability: 92.00%
- Lip-sync error: 135.00 ms
- TTS synthetic probability: 88.00%
- Anti-spoofing confidence: 11.00%

Grounds for Deepfake Classification

Summary: Media classified as likely synthetically manipulated based on 12 forensic indicator(s), including 4 high-severity finding(s).

- Audio-Video Sync (critical):** Audio–video lip movement is misaligned, consistent with synthetic dubbing or post-hoc voice replacement rather than naturally captured speech.
(lip_sync_alignment_error_ms: 135.0 ms)
- Facial Manipulation (high):** Spatial facial inconsistencies detected across frames suggest GAN or deepfake-based facial manipulation. (spatial_cnn_manipulation_probability: 92.00%)
- 3D Face Geometry (medium):** 3D face mesh landmarks are unstable across the temporal sequence, indicating inconsistent facial geometry typical of synthetic faces.

(face_mesh_landmark_variance: 0.0750)

- **Synthetic Voice (high):** The voice track exhibits characteristics consistent with text-to-speech or neural voice cloning rather than a live recording. (tts_synthetic_probability: 88.00%)
- **Voice Authenticity (medium):** Pitch contour and spectrogram features do not match natural speech patterns for the apparent speaker, suggesting audio synthesis or splicing. (spectrogram_pitch_mismatch_ratio: 39.00%)
- **Anti-Spoofing (high):** Anti-spoofing neural network assigns low confidence to bona fide speech, indicating the audio is likely non-genuine or heavily processed. (anti_spoofing_nn_confidence: 11.00%)
- **Lighting Consistency (medium):** Lighting on the face and background shifts unnaturally between frames, suggesting compositing or generative synthesis rather than a single capture. (illumination_inconsistency_score: 71.00%)
- **Shadow Geometry (medium):** Shadow direction and softness are inconsistent with the scene light source, a common artifact in deepfake and face-swap videos. (shadow_geometry_inconsistency_score: 66.00%)
- **Color Grading (medium):** Skin tone and color grading do not remain consistent across frames; color boundaries and shadows appear imperfect relative to natural video. (color_grading_anomaly_score: 59.00%)
- **Temporal Stability (medium):** High-frequency flicker and temporal instability detected at facial boundaries, consistent with frame-wise generative manipulation. (temporal_flicker_score: 55.00%)
- **Facial Boundaries (medium):** Visible artifacts at the jawline, hairline, or face perimeter suggest blending of a synthetic face onto an original body. (facial_boundary_artifact_score: 62.00%)
- **Analyst Observation (medium):** Dummy run: lip-sync mismatch; inconsistent lighting and shadows on face.

Expert signature: _____ Date: 02-06-2026

SECTION 6 — Grounds for Deepfake Classification

See detailed findings above. This media exhibits indicators consistent with synthetic generation under multi-modal forensic analysis.

SECTION 7 — Regulatory Notices & Complaints (Summary)

IT Amendment Rules, 2026: Intermediary takedown notice required within 3 hours under Rule 3(1)(b).

RPA 1951: Complaint under Section 123(4) for corrupt practice to prejudice election regarding Shri Demo Politician.

Draft FIR: Offences under BNS §319, §336, §356 recommended for registration.

SECTION 8 — Chain of Custody Statement

The original electronic record, forensic analysis outputs, and this compiled packet are sealed with cryptographic hashes. Any alteration invalidates the bundle hash recorded in the audit log and eSakshya metadata.

End of consolidated legal evidence packet — 8c1bf891-c969-4cc2-8c92-4225e8089ae4
